Clicking the bubbles or rolling the color palette for over 16 million colors.

Music controls the bulb's colors and brightness. You only need to enjoy the favorite song and start a perfect day.

Achieving colors jumpily change as well as speed & brightness adjustment

# Smart Lighting

## Features:

- Adopting BLE mesh Technology: connect hundreds of devices fast and stably.
- APP control: easy to manage all devices and control the light freely.
- Coordinating with panel control, remote control to make home more intelligent and comfortable.
- CCT adjustable: from coolwhite (7000k) to warmwhite (2400k), Achieving freely and stepless dimming.
- Brightness can be adjusted from 2% to 100%. Perfectly replace thyristor dimming.
- Personalize your lighting with 16+ millions of color plus cool and warm white.
- The bulbs can be controlled by several smart phones; no hubs, no gateways, no wifi, no bridges, makes it easy to control every bulb.
- Support to add new group, share group, home system encryption, and avoid malicious control by strangers.
- Achieving the interaction between human and smart bulb. Customize breath, alarm clock, circadian rhythm, music, game and other personalized functions.
